

CREATIVE STRATEGY

The Smart Strategy Toolbox

WHAT'S HAPPENING?

We are streamlining production for our smart strategy solutions to become more self-serve and less resource-intensive.

Clarity of Roles & Responsibilities

01

Strategists

Strategists will remain owners of the creative vision and how it comes to life inc. pitching, providing creative guidance, tools implementation

02

CPs & CAMs

Our sales partners will “own the relationship” inc. communication with the clients, maintaining timelines, and reporting.

03

TPMs

TPMs will move to a support role, maintaining solutions and available to answer questions and troubleshoot one-off issues.

For Trend Matcher, Live Odds and the OOH Dashboard

Brand Notification Campaigns

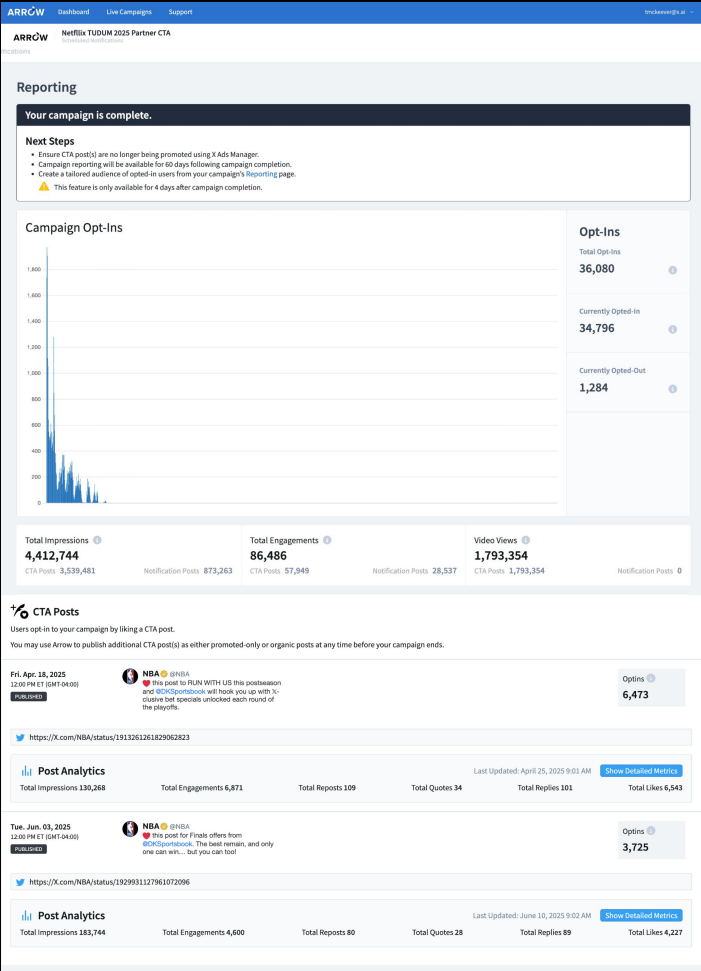

via Arrow

SCHEDULED NOTIFICATIONS

Scheduled Notification campaigns will have no change to their process or pricing. CAMs or CPs will continue to set up and maintain campaigns.

PARTNER CTAs

Partner CTA campaigns are now available through the same process as Scheduled Notifications. Due to the additional complexities, we still recommend Strategists be involved in production.

Brand Notification Campaigns via Arrow

HOW IT WORKS

Setup:

1. (CAM) No change to current process for setting up Arrow campaigns ([current post-sale process](#))
2. (Strategist) If needed, ask your manager to enable Partner CTAs
 - (Strategist) Build the KOC Deck ([templates](#))
 - (CAM) Schedule the KOC
 - (CAM) Send emails and maintain timelines

Pricing + Timelines: Continue to consult [Go/ScheduledNotifications](#) and [Go/PartnerCTAsPMB](#) for pricing requirements and timeline recommendations

The screenshot shows the 'New Campaign' page in the Arrow dashboard. It prompts the user to 'Select your campaign format.' There are two main options:

- Scheduled Notifications:** Users opt-in for scheduled notification posts with additional content by liking a CTA post. Users will also receive an instant confirmation of their opt-in.
 - 1+ CTA Post(s)
 - 1 Instant Opt-In Notification Post
 - 1 Opt-out Notification Post (Optional)
 - Multiple Scheduled Notification Posts
- Instant Notification:** Users opt-in to receive an instant notification post from the brand.
 - 1+ CTA Post(s)
 - 1 Instant Notification Post

Both options have a 'Create Campaign' button.

📌 Scheduled Notifications: Minimum Campaign Spend (USD)

Scheduled Notification Posts	Band A 🇺🇸 United States	Band B 🇮🇪 Ireland, 🇸🇦 KSA	Band C 🇨🇦 Canada, 🇦🇺 Australia, 🇰🇷 Korea	Band D 🇯🇵 Japan, 🇫🇷 France, 🇩🇪 Germany, 🇲🇽 Mexico, 🇸🇦 Saudi, 🇺🇸 UAE	Band E 🇰🇷 Korea, 🇸🇦 Saudi, 🇺🇸 UAE
Instant only (0)	\$50,000	\$25,000	\$12,000	\$9,000	\$7,000
1	\$50,000	\$25,000	\$12,000	\$9,000	\$7,000
up to 3	\$75,000	\$35,000	\$16,000	\$12,000	\$10,000
up to 5	\$100,000	\$50,000	\$24,000	\$18,000	\$15,000

RIN, SIN and @Mention for Response via QWVR

RIN, SIN, @MENTION FOR RESPONSE

RIN/SIN and Post-for-Response campaigns are accessible to be run through QWVR with support from an Engineer from IC Group. Strategists own the production process in partnership with a CAM.

New Tools:

- **ZenDesk:** Campaign requests are made via [ZenDesk](#). An account can be made using your xAI email address
- **External Slack Channels:** For comms with IC Group, External Slack channels are requested via [xAI IT Bot](#).

CONVERSATION

Pre-Sale

- Leverage the [Trend Genius Calculator](#) to vet conversation topics, and recommended spend.

Post Sale

- (Strategist) Submit a [ZenDesk](#) for campaign setup
- (Strategist) Add CAM as an admin in Arc
- (Strategist) Set up the campaign details in Arc
- (Strategist) Build KOC deck ([template](#))
- (CAM) Schedule a KOC
- (CAM) Invite the client to Arc via email address
- (CAM) [Optional] Schedule a set-up call
- (CAM) Send email comms and maintain timelines

Pricing + Timelines: Timing to set up a campaign shell is 3 days. Consult the [Trend Genius](#) PMB for pricing.

The screenshot shows the Arc Trend Genius interface for a campaign named "Trend Genius - Universal Orlando". The interface includes a top navigation bar with "ARC", "Trend Genius", "Team", "Team Admins", and "Users Admin". The main content area displays the "Campaign Schedule" section with a "Start Date" of Feb 5, 2026, 4:30 PM EST and an "End Date" of Apr 30, 2026, 11:59 PM EST. Below this is the "Campaign Performance" section, which includes a table of metrics:

Metric	Value
TOTAL RUNTIME	1032h 47m
TOTAL SPEND	\$229,326.87
COST PER RESULT	\$3.80
IMPRESSIONS	60,380,250
ENGAGEMENTS	351,662
ENGAGEMENT RATE	0.58%
CLICKS	333,356
CTR	0.55%

Below the performance metrics is a "Trigger Performance" section.

Trend Genius Calculator

The screenshot shows the Trend Genius Calculator interface, specifically the "Campaign Setup" step. The interface includes a top navigation bar with "Campaign Setup" and "Threshold Analysis". Below this is a progress bar with five steps: 1. Details, 2. Keywords, 3. Data, 4. Thresholds, and 5. Results. The "Details" step is currently active. The "Campaign Details" section includes a form for entering campaign information:

Live ODDS Playbook TBD

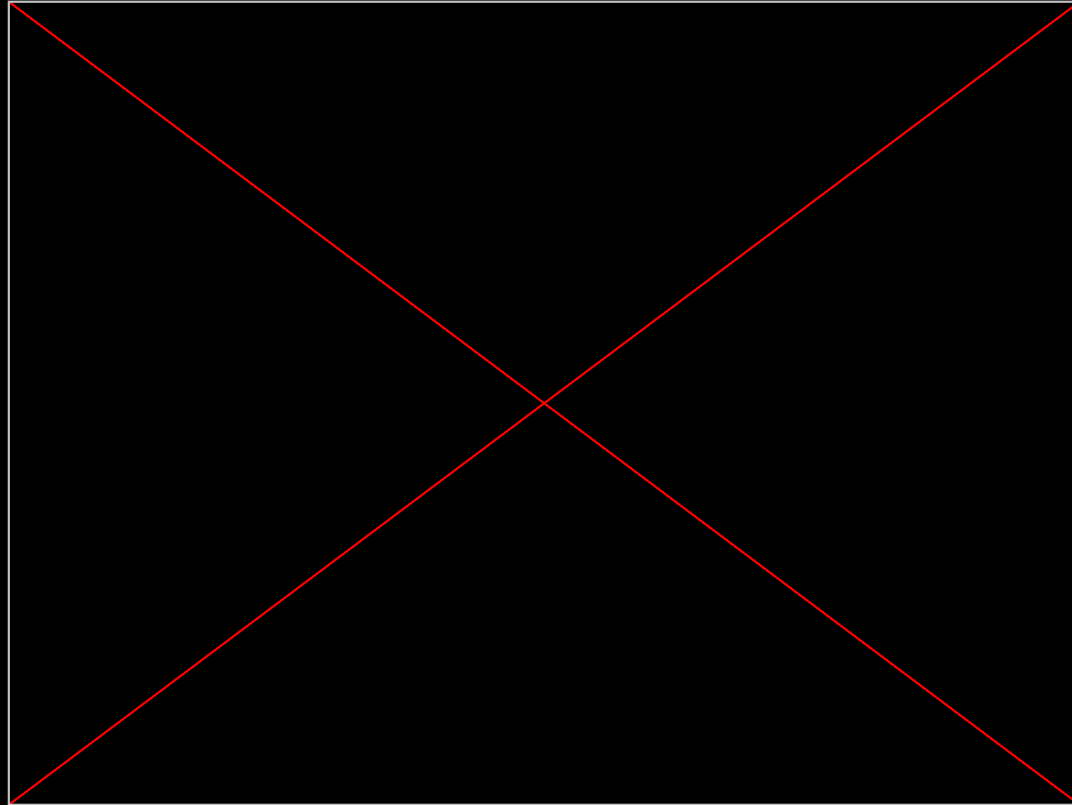

The screenshot displays the Swarm creative tool interface. The top section shows a preview of a live odds advertisement for Caliente.mx, featuring a red background and the text "¡APUESTA AHORA!". The ad includes logos for Caliente.mx, Casa de Apuestas Oficial, and Liga BBVA. It displays odds for a match between America and Tigres UANL, with a "EMPATE" (Draw) outcome. The odds are listed as +100, +200, and +150. Below the odds, it states "ESTOS MOMIOS PUEDEN CAMBIAR EN CUALQUIER MOMENTO" (These odds can change at any moment). The ad also shows "Si apuestas \$1000 cobrarías: \$1000" (If you bet \$1000 you would win \$1000).

The bottom section of the interface shows the configuration options for the ad. It includes a "Background" section with "Change media" and "Delete media" buttons. Below this, there are tabs for "Output type", "Resolution", "Status", "Media fit", "Min Length", and "Max Length". The "Output type" is set to "Video", "Resolution" is "1920 x 1080", "Status" is "Active", "Media fit" is "Cover", "Min Length" is "5 sec", and "Max Length" is "5 sec".

The bottom section also features a table with columns for "Source", "Default value", and "Value". The table lists various items and their corresponding values, including "Static item", "Media", "Text", "America v Tigres UANL", "US PRC", and "ESTOS MOMIOS PUEDEN CAMBIAR EN".

Source	Default value	Value
Static item	Media	Change media
Static item	Media	Change media
Static item	Media	Change media
Static item	Text	¡APUESTA AHORA!
Static item	Text	EMPATE
America v Tigres UANL (,)	US PRC	+100
America v Tigres UANL ()	US PRC	+200
America v Tigres UANL (.)	US PRC	+150
Static item	Text	ESTOS MOMIOS PUEDEN CAMBIAR EN
Static item	Text	Si apuestas
Static item	Text	\$1000
Static item	Text	cobrarías:
America v Tigres UANL ()	\$\$\$ by odds	\$1000

Adaptive Media Playbook TBD

Note: Same user experience of the Dash used for Live Odds.

The screenshot displays the Swarm creative strategy dashboard. The top section shows a preview of a live odds advertisement for a soccer match between America and Tigres UANL. The ad features the Caliente logo, the text 'CASA DE APUESTAS OFICIAL | LIGA BBVA', and a large '¡APUESTA AHORA!' (Bet Now!) headline. Below the headline, it shows the current score 'EMPATE' (Draw) and three betting options: '+100', '+200', and '+150'. A warning message states 'ESTOS MOMIOS PUEDEN CAMBIAR EN CUALQUIER MOMENTO' (These odds can change at any moment). The ad also includes a 'Si apuestas \$1000 cobrarías: \$1000' (If you bet \$1000 you would win \$1000) section.

The bottom section of the dashboard shows the configuration for the advertisement. It includes a table with columns for 'Source', 'Default value', and 'Media'. The table lists various static items and their corresponding default values and media assets. The 'Media' column includes a 'Change media' button for each item.

Source	Default value	Media
Static item	Media	Change media
Static item	Media	Change media
Static item	Media	Change media
Static item	Text	¡APUESTA AHORA!
Static item	Text	EMPATE
America v Tigres UANL (,)	US PRC	+100
America v Tigres UANL ()	US PRC	+200
America v Tigres UANL ()	US PRC	+150
Static item	Text	ESTOS MOMIOS PUEDEN CAMBIAR EN
Static item	Text	Si apuestas
Static item	Text	\$1000
Static item	Text	cobrarías:
America v Tigres UANL ()	\$\$\$ by odds	\$1000

XOOH Playbook

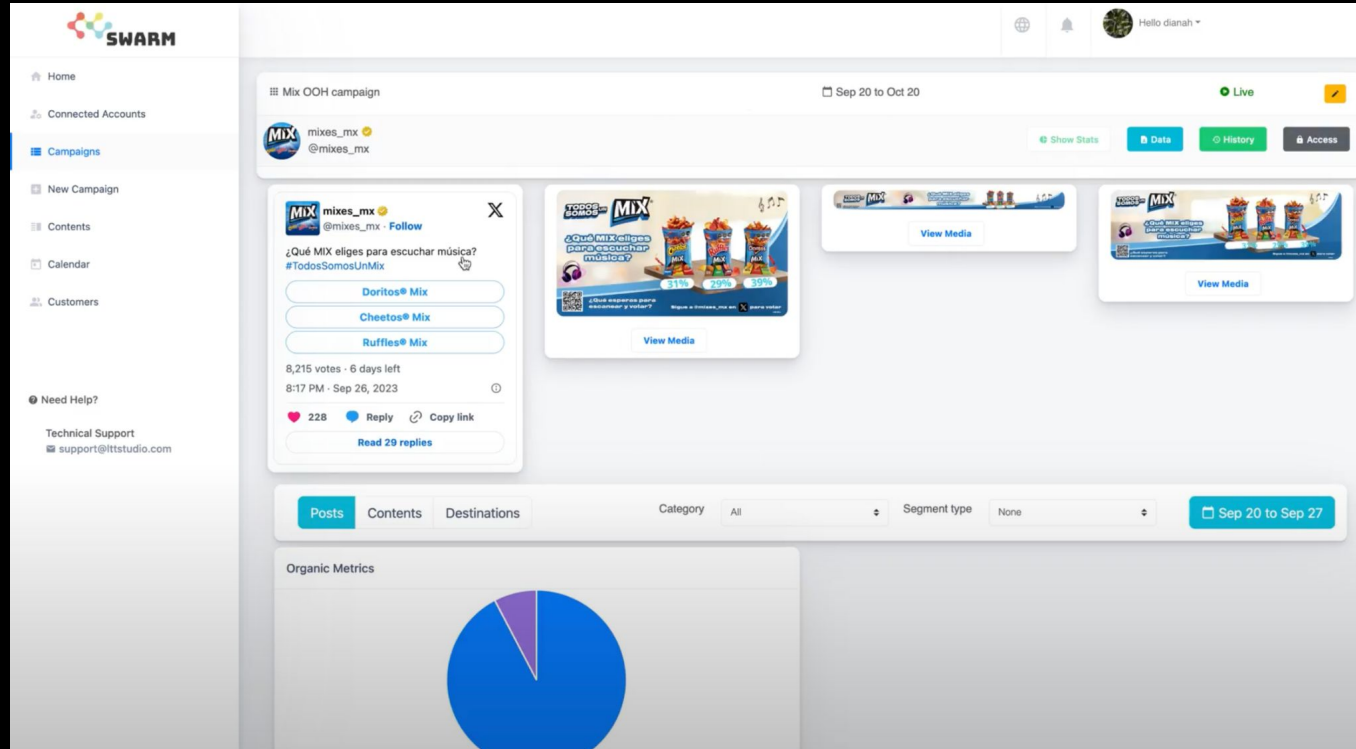

OOH Dashboard

- Billboards screens will need to be provided by the client/agency.
- Production SLA: 10 development days to start campaign
- Campaign can have a total duration of 2 months
- Internet Connection: Ensure that the out-of-home billboard has a stable and reliable internet connection. This can be through a wired connection, Wi-Fi, or cellular data network.
- The brand is responsible for completing the OAUTH process.
- Once the campaign basic setup is complete, the brand is responsible for uploading per screen size the designs, positioning the metrics display block in the layout (choose color, size and font from a select list) and confirm exportable formats.
- Brand needs to be gold verified
- In the case of metric update, you'll need to choose ONE engagement metric between RT, Likes, Replys or Comments. **The engagement metric for the campaign will remain the same and cannot be changed in the middle of the campaign.**
- We can use video on background depending on the authorization of the OOH panel and local laws. This is 100% responsibility of the brand.
- Clients must define the design layout for each screen size to upload to the dashboard.

*Notice the deliverables should be in high-resolution PNG or JPG format without any metric text.
