

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

OVERVIEW

GO TO MARKET STRATEGY & RESOURCES

PILOT DETAILS

OVERVIEW

Description & value prop

- Sequential Instant Notification Campaigns are a solution that helps stories unfold on X in a unique way that feels tailor-made and therefore more meaningful to the audience.

What you need to know: key talking points

- Strategists can pitch and deliver specific types of Sequential Instant Notification campaigns by working directly with IC Group ("ICG"), the vendor that has been engaged to support this type of program.
- Vendor costs and timelines for delivering Sequential Instant Notifications have been predetermined which provides predictability and speed when pitching and delivering campaigns.
- Pitched and delivered campaigns will be tracked and evaluated by the Solutions Lab in order to evaluate the efficacy and value of Sequential Notification campaigns.
- Sequential Instant Notification campaigns will be delivered by the Strategist working directly with IC Group.
- All content for Sequential Instant Notification campaigns will be managed by QWVR, an integrated campaign management platform developed by IC Group that enables advertisers to manage content for X autoresponse campaigns. Advertisers will enter all campaign content directly into QWVR for each campaign.
- Sequential delivery of content as a tactic is not constrained to this pilot and can be pursued outside of this pilot as an "Idea Worth Talking About", by talking with the Next Lab.

Customer challenge

- Advertisers have an abundance of content that they want to efficiently and effectively distribute on X.

Product solution & benefits

- Sequential delivery of content provides an opportunity for an advertiser to deliver many pieces of related, sequential content to an individual through X.
- Sequential Instant Notifications allows for one person to participate in a campaign multiple times.
- Sequential delivery of content allows for interactive-feeling content to be received and explored by people.

Target audience

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

- This pilot is available for X Next Strategists in the US and Canada to pitch and deliver to their advertisers.

Timing

- Team Training & pilot launch: beginning w/o Oct. 3, 2022
- Pilot Duration: 6 months or 20 delivered programs, whichever comes first

GO TO MARKET STRATEGY & RESOURCES

Why is this pilot important for X?

- This pilot will allow X Next to evaluate the efficacy of Sequential Instant Notifications for our advertisers and for our business.
- Data collected during this pilot will inform X Next's decisions about how to best invest time and resources into Sequential Instant Notification programs.

Success metrics (WIP)

Sales Success

- Sequential Instant Notification programs sell 6+ times over 2 quarters.
- Flexibility to pitch and execute programs by partnering with ICG results in X being able to efficiently respond to briefs and launch programs.
- All programs can be successfully delivered using the QWVR CMS; Strategist and customer feedback after using the CMS is consistently positive indicating an improved customer experience.

Supported Use Cases

- **Exploration from Point A to B**
 - **What:** Sequential delivery of assets that shows custom content from a brand guiding the user from point A to B and so on.
 - **Sample CTA:** ❤️ this post to take a tour through the Louvre.
 - Instant Notification will be sent in sequential order with up to 50* posts with content.
 - User can only opt-in once.
- **Introducing Characters**
 - **What:** Sequential delivery of assets that introduces characters one by one.
 - **Sample CTA:** ❤️ this post to meet each of the characters from Avatar.
 - Instant Notification will be sent in sequential order with up to 50* posts with content.
 - User can only opt-in once.
- **Showcasing a Timeline**
 - **What:** Sequential delivery of assets a storyline, products, etc.
 - **Sample CTA:** ❤️ this post to see the iPhone as it evolved over the years.
 - Instant Notification will be sent in sequential order with up to 50* posts with content.
 - User can only opt-in once.

PILOT DETAILS

Campaign Options

This Sequential Instant Notification pilot supports the following campaign experiences:

- Sequential Instant Notifications
- Sequential Instant Notifications with Scheduled Notification
- Sequential Instant Notifications with Subscription Notifications

Campaign Specifics:

1. **1+ CTA posts** where any one user can opt-in to get one notification once and only once by tapping the like button.
2. **1 Opt-in/Instant Notification post** (content for the post is the first piece of content)
3. **Daisy-chained Instant Notification posts** where Opt-in/Instant Notification posts include a CTA to Like the post to see/receive the next piece of content.
 - a. Each subsequent opt-in and instant notification sequentially delivers 1 of the remaining posts until all content has been delivered.
 - b. If a user goes through all sequential instant notification posts the user will get a post with the last piece of content, which should tell the recipient that there are no more pieces of content.
4. **Optional: Scheduled Notification post(s)**
 - a. Scheduled Notification posts do not contain sequential content.
 - b. All subscribed users get the same post content.
5. **For CTA posts:**
 - a. Image and Video Ads

**Important note: Although clickable ad formats are technically supported in the CTA post, we recommend against using them. Clickable ads in the CTA post can confuse the message for users regarding what action to take, and any click but a like will charge the advertiser for a billable engagement without driving a campaign opt-in. Consider delivering ads with buttons or links in the instant opt-in notification post instead, as a next step for users who have just opted-in with a Like or Repost.*
6. **For Instant Notification and Scheduled Notification posts:**
 - a. Image and Video Ads
 - b. Image and Video Ads with Web Buttons* (fka Image/Video Website Cards)
 - c. Carousel Ads with Web Button* (Image or Video)

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

- d. Image and Video Ads with App Buttons* (fka Image/Video App Card)
- e. Carousel Ads with App Button* (Image or Video)
- f. Image and Video Ads with Conversation Buttons* (fka Image/Video Conversational Card) Moment Ads* (fka Moments)

7. Rate Limits:

- a. All programs should run at 2 posts Per Second (TPS).
- b. If a high number of opt-ins is expected or observed, talk to the Solutions Lab in the strategist+lab X slack channel to discuss rate limit elevations. **Note: it takes 5-7 days for rate limit elevations.**

Excluded Functionality

The following types of campaign components are not part of this pilot due to the additional experience design, scoping and planning needed to support these campaign features, and should be pursued as IWTa work outside of this pilot:

- 1. Post copy or Conversational Card opt-ins are outside the scope of this pilot.
- 2. Post content or formats not explicitly supported are outside the scope of this pilot.
- 3. Sequential Subscription Notifications and Sequential Scheduled Notifications are not part of this pilot.
- 4. Talent CTAs are not supported as part of this pilot.
- 5. This pilot is available in the US + CAN for campaigns in the English language, all other markets and languages are excluded from this phase of the pilot.

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

	Like for Instant Notification	Like for Scheduled Notification	Like for Subscription Notifications
Base Price	\$10,500	\$10,500	\$13,000
INCLUSIONS			
Sequential Instant Notifications (Daisy-chained)	Up to 50	Up to 50	Up to 50
Scheduled Notification posts Included (no sequential variations supported)	0	1	5
Additional Per-Notification Price	n/a	n/a	\$650
Live Campaign Period	30 Days	30 Days	30 Days <i>per Scheduled Notification</i>
QA Testing	Included (see notes below for what this includes)		
Reporting	Included		
ADD AFTER HOURS ICG SUPPORT (if requested)			
Support on weekends or outside of business hours	\$750 Per request		
Support on holidays	\$1,250 Per request		
DISCOUNTS			
X-Paid Invoicing Discount	-\$1,500	-\$1,500	-\$1,500

Note:

- ICG QA Testing of the Campaign is included for all pilot campaigns.
- Live Testing Period for Customers to conduct their own live program testing will be available before promotion begins during program launch.
- ICG will provide the following client-facing services as part of each pilot campaign:
 - QWVR Campaign Setup
 - Client kickoff call - QWVR Content Management and recap email
 - Follow up on client requirements & deadlines
 - Review content to ensure technical compatibility and policy compliance and provide feedback
 - Launch email summary
 - Lead launch day steps and execution

ICG will also perform the following functions:

- Scoping (via Zendesk)

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

- Create project channel in Slack
- OAuth link creation
- QWVR Campaign setup & user login invitations
- Live testing
- Automated reporting (if requested by Strategist)
- Campaign monitoring
- Billing
- For each Scheduled Notification post in a Subscription Notification campaign: content review in QWVR, preview testing, reporting

Requests outside of these areas, or requests that require support hours exceeding IC Group's allocated pilot campaign hours may incur additional costs.

Pilot Required Minimum Spend

U.S Spend Requirements

Format	Number of Scheduled Notifications	Number of Sequential Instant Responses	IO Minimum (USD)	Minimum CTA Spend (USD)	Max Campaign Duration
Instant Notification	N/A	Up to 50	\$250,000	\$50,000	30 days
Scheduled Notification	1	Up to 50	\$250,000	\$50,000	30 days
Subscription Notifications	Up to 3	Up to 50	\$250,000	\$75,000	30 days per reminder
	Up to 5	Up to 50	\$250,000	\$100,000	
	Up to 9	Up to 50	\$250,000	\$150,000	
	Full Season (TV/Streaming; up to 14 episodes)	Up to 50	\$250,000	\$175,000	

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

Canada Spend Requirements

- NOTE:** If two languages are supported additional production costs will be incurred.

Format	Number of Scheduled Notifications	Number of Sequential Instant Responses	IO Minimum (USD)	Minimum CTA Spend (USD)	Max Campaign Duration
Instant Notification	N/A	Up to 50	\$168,000	\$12,000	30 days
Scheduled Notification	1	Up to 50	\$168,000	\$12,000	30 days
Subscription Notifications	Up to 3	Up to 50	\$168,000	\$16,500	30 days per reminder
	Up to 5	Up to 50	\$168,000	\$24,000	
	Up to 9	Up to 50	\$168,000	\$40,000	
	Full Season (TV/Streaming; up to 14 episodes)	Up to 50	\$168,000	\$48,500	

US-Led Global Extension Spend Requirements

- NOTE:** The spend requirements below only apply when extending a US-led program to additional global markets. Content, timelines and management of the programs must be aligned with the US program and led out of the US for the discounts below to apply. If the US is not participating, please engage the Product and Productization Team to discuss.
- NOTE:** Global programs may have longer production timelines and some markets may not have profanity keyword lists available. Please consult ICG for timelines and market availability before committing to extend a US campaign to specific markets.

	United States	Japan, United Kingdom	Australia, Canada	Germany, France, Spain, MENA	Rest of world
Minimum IO	\$250,000	\$100,000	\$72,000	\$54,000	\$45,000
Reminders					
0	\$50,000	\$25,000	\$12,000	\$9,000	\$7,000
1	\$50,000	\$25,000	\$12,000	\$9,000	\$7,000
Up to 3	\$75,000	\$35,000	\$16,000	\$12,000	\$10,000
Up to 5	\$100,000	\$50,000	\$24,000	\$18,000	\$15,000

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

Up to 9	\$150,000	\$80,000	\$40,000	\$30,000	\$25,000
Full Season	\$174,000	\$95,000	\$48,000	\$36,000	\$30,000

Est. Campaign Milestones & Timing

All timelines are in business days. Content creation may require longer lead times.

Sequential Instant Notification Programs
KOC : 12 days before launch
Content Submission & Review in QWVR : 9 days before launch
Content Scheduled (locked) in QWVR : 5 days before launch
UAT : 2 days before launch

Campaign Scoping and Delivery

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

Presale Process

1. Strategist adds campaign to Pitch Tab on the Tracker
2. Strategist starts an ICG zendesk request* (with Emily Wyler cc'd) to confirm pricing at [go/ICGZendesk](#). Start a "Sequential Notification Request" as the campaign name and include:
 - a. Details of program
 - b. Number of CTAs
 - c. Number of Sequential variations for Instant Notification
 - d. Number of Scheduled or Subscription Notification posts
 - e. Start date
 - f. End date
3. Add Zendesk Ticket to Tracker
4. ICG responds with price and timeline
5. Strategist pitches campaign
6. Strategist updates the Zendesk ticket confirming if the program is sold or canceled

Post Sale Process

1. Strategist will update the Zendesk ticket with ICG letting them know the program sold through and confirming the final campaign options
2. Strategist will update the status of the campaign on the Pitch Tab of the Tracker
3. Strategist will add the campaign to the Campaign Tab of the Tracker
4. Strategist submits a [Scheduled Notifications & Auto-response \(go/arrowrequest\)](#) ticket to confirm advertiser eligibility and elevate rate limits for auto-response campaigns.
5. ICG will set up a slack channel and add the Strategist
6. ICG will share [campaign intake form](#) in channel to be completed by the Strategist
7. ICG will set up the QWVR campaign shell and add Strategist with read-only access
8. Strategist will update the [KOC deck template](#) and will share with ICG
9. Strategist will export the user experience slide from the KOC deck and email or slack it to ICG; ICG will then upload it to the QWVR campaign overview page
10. Strategist will host the Kick-Off Call with ICG
 - a. ICG will send out the KOC deck to the client ahead of the KOC
 - b. The Strategist will present goals, user experience, content requirements and strategy
 - c. ICG will present Roles & Responsibilities, OAuth, QWVR Content Management
 - d. ICG will present a QWVR tooling demo using a dummy campaign
11. Following the KOC, ICG will send a recap email that includes:
 - a. OAuth link and note to Advertiser campaign access will be granted upon OAuth completion
 - b. Request for the advertiser to confirm team email addresses to be added as editors/viewers
 - c. Program milestones
12. ICG will finalize the QWVR campaign setup and prompt Strategist on Slack to verify campaign setup
13. Once verified, ICG will invite advertisers to be QWVR campaign editors and, optionally, invite additional team members to have view-only access
14. ICG will send confirmation email to advertiser following setup
15. Strategist will work directly with ICG to align on milestones, deliverables, testing, feedback, and reporting

Launch:

1. Strategist will update the Campaigns Tab on the Tracker with the CTA Link
2. Strategist will add any reporting metrics to the Campaigns Tab on Tracker once the campaign has wrapped

* What is QWVR?

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

- QWVR is an integrated campaign management platform developed by IC Group that enables advertisers to manage content for X autoresponse campaigns. Advertisers will enter all campaign content directly into QWVR for each campaign.

* Setting up a Zendesk account

1. If it's your first time submitting a zendesk ticket you'll need to create an account.
 - a. Click on "New to QWVR Support? Sign up" and follow the instructions.
 - b. If you experience any problems please let us know in the [#sequential-pilot](#) Slack channel

Reporting

Reporting is available on-demand through the QWVR reporting website for the campaign. The Strategist will be responsible for sharing data with the Advertiser.

Reporting data available:

- Opt-ins
- Opt-outs
- Already posted
- Prohibited Word
- Number of times each piece of content was delivered
- Number of times people opted in after receiving a piece of content (e.g. number of people who received a 2nd piece of content, third, fourth, etc.)

If Scheduled or Subscription Notification posts are part of the campaign, the following will be provided for each scheduled/subscription notification post:

- Total opt ins at start
- Missing User
- Prohibited Word
- Missing post

Billing

When the advertiser is paying, Strategist will connect ICG project manager with the advertiser billing contact and ICG will manage contracts and billing directly with the advertiser.

When X is paying, contracts are not needed between the advertiser and ICG. The Strategist is responsible for getting Production budget approved (normal process) and Emily Wyler will support payment:

1. **Strategist** defines program and shares with ICG through Zendesk ticket [go/icgzendesk](#), requesting costs and timing, CCing Emily Wyler
2. **ICG** responds with pricing and timing via Zendesk
3. If X will pay, **Strategist** requests production budget from Sector Lead
4. If Sector Lead approves, the **Strategist** adds the program costs to the [expense tracker](#) under the blanket ICG PO# 10137413
5. The **Strategist** pitches the program to an advertiser
6. **Advertiser** commits to do the program

Sequential Instant Notifications

Product Marketing Brief & FAQ

BPM: Emily Wyler, Tin Lee | Lab Sponsor: Craig Richards | TPM: Seth Harris

7. **Strategist** updates ICG and confirms the program is moving forward
8. **ICG** creates a PDF order form and sends to Emily Wyler
9. **Emily Wyler** submits the Campaign Order Form following the steps listed in the [“How to Submit an Order Form” document](#).
